OUR STORY

From building ourselves to building a multi-sector company

Every successful company has a story — ours began with a passion for learning and creating opportunities.

PROTECH was never just a conventional business idea. It grew out of a journey of continuous learning, gaining experience and exploring different fields of work.

The vision started from a belief that expertise is not built in a single field — and that understanding markets, spotting opportunities and turning ideas into real projects is the foundation of every successful company.

Through years of experience, work and development, PROTECH took shape as a company operating across three core sectors, united by one goal: delivering practical solutions that create real value for our clients and our community.

Our Vision

For PROTECH to become an Egyptian brand with an influential presence in its sectors, by building an advanced business ecosystem founded on innovation, efficiency, strategic partnerships, and investment in people and technology.

Our Mission

Delivering integrated solutions and reliable products and services, built on understanding our clients' needs, applying specialized expertise, and turning challenges into opportunities and lasting value.

Eng. Nizar

Founder & CEO

FROM THE FOUNDER

The founder's story — a mindset that believes in diverse expertise

Behind PROTECH is hands-on experience that began early in the world of business and technology, and grew through many stages of learning, work and gaining expertise.

Our founder believes that building yourself doesn't stop at earning a degree or mastering a single specialty — it continues through new experiences, learning from challenges and seeking new opportunities.

From this philosophy the PROTECH mindset was formed: one that doesn't fear working across fields, isn't satisfied with conventional solutions, and constantly seeks opportunities to build projects that grow and last.

OUR LEADERSHIP PHILOSOPHY

“Take the hand of those with less experience, and learn from those with greater knowledge and experience.”

We believe real success is never the work of one person — it is built by a system of talented, collaborating minds.

OUR VALUES

Our Values

- Trust and credibility
- Continuous learning and development
- Innovation and exploring opportunities
- Quality and professionalism
- Responsibility and commitment
- Teamwork and building talent

FROM TODAY TO THE FUTURE

We don't see what we have achieved as the end of the journey, but as the foundation for a new stage of expansion and growth.

We aspire to build an institution able to grow across multiple sectors, form successful partnerships, and deliver real value to every client we work with.

From expertise we craft solutions — from opportunities we build the future.

PROTECH — ENGINEERING TRUST. DELIVERING SOLUTIONS.

OUR SERVICES

Our Services

We offer a range of services tailored to our clients' and the market's needs:

Supply & Installation

Supply and installation of devices and systems, whatever the size of the project.

After-Sales Service

Customer follow-up and training on using the equipment.

Fault Follow-up

Following up on any faults or issues and resolving them quickly.

Maintenance & Upgrades

Maintaining equipment, or replacing and upgrading it to the latest market requirements.

Maintenance Contracts

Flexible maintenance contracts — monthly, semi-annual or annual.

Three sectors. One vision.

Medical Devices

Medical devices, equipment and complete fit-out solutions for healthcare facilities — supporting efficient medical services and a better working environment inside every facility.

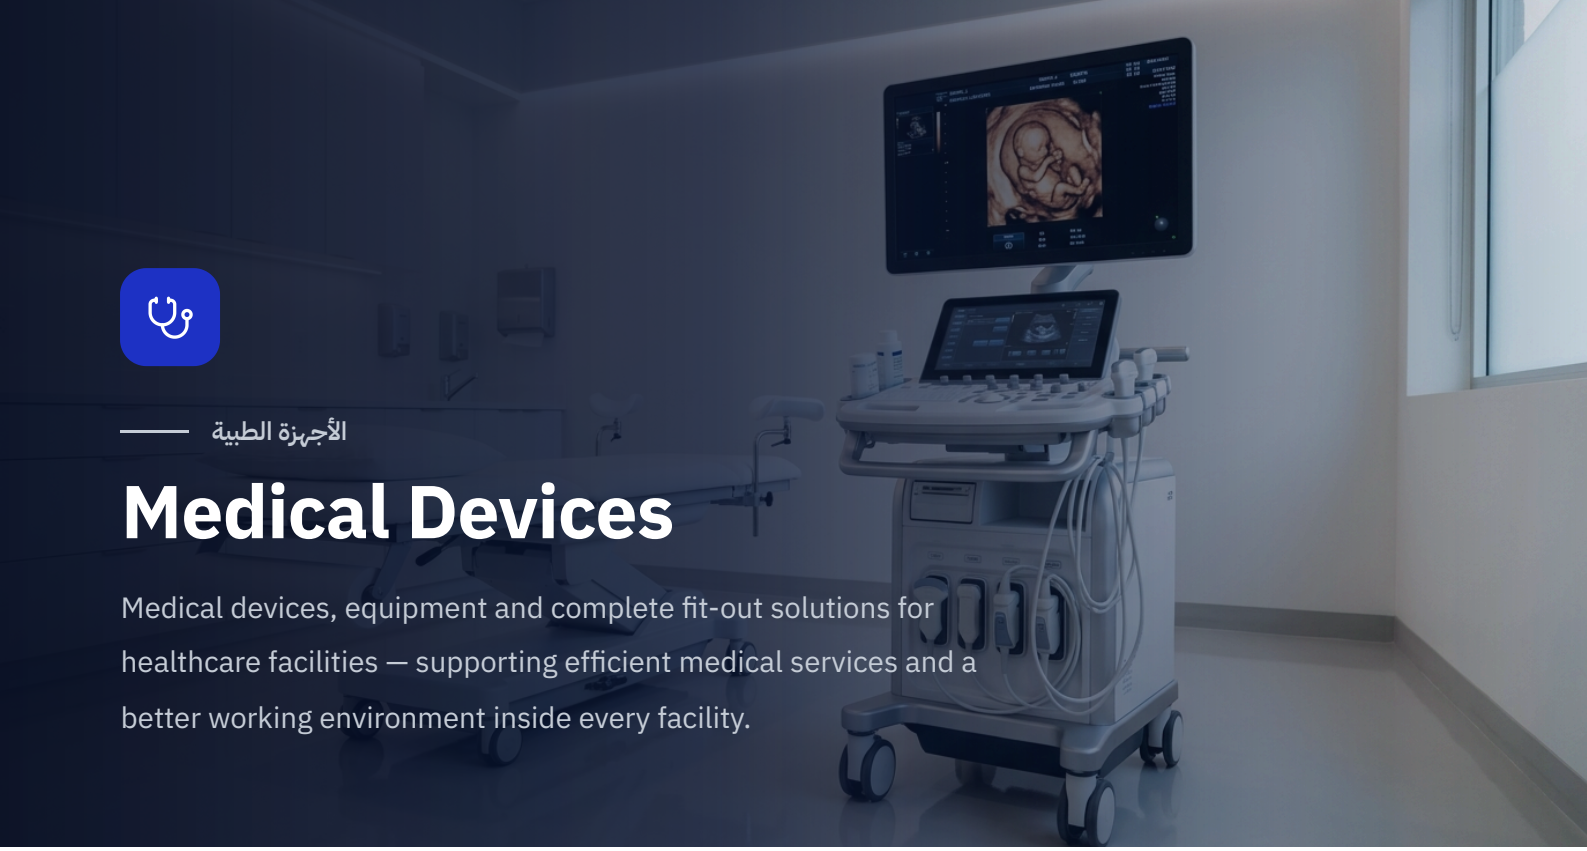

Security Systems & Networks

Protection, surveillance and technology-infrastructure solutions — CCTV systems, networks, security gates and fire alarm systems.

Real Estate & Contracting

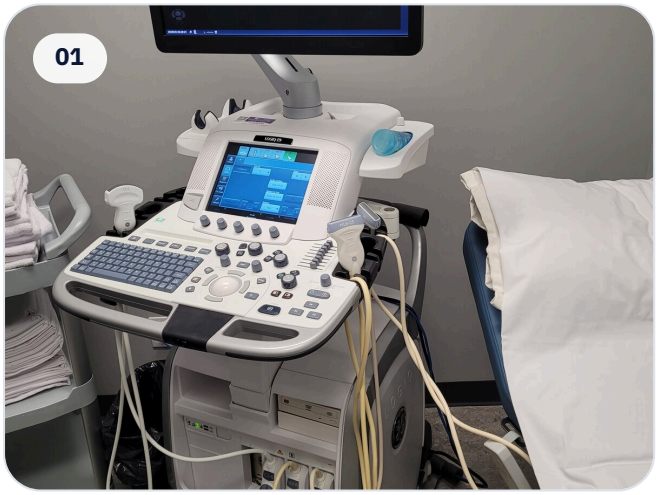

Developing and delivering real estate projects, contracting and finishing works — driven by a vision that combines planning, quality and cost efficiency.

الأجهزة الطبية

Medical Devices

Medical devices, equipment and complete fit-out solutions for healthcare facilities — supporting efficient medical services and a better working environment inside every facility.

أجهزة الموجات الصوتية

Ultrasound

We supply and maintain diagnostic ultrasound systems, as well as their probes.

أسرّة العمليات الجراحية

Operating Surgery Bed

We supply and install operating tables of all types.

Medical Devices

شاشات المراقبة

Patient Monitor

Supply and installation of vital-signs patient monitors with high accuracy and quality.

كشافات العمليات

Surgical Scout

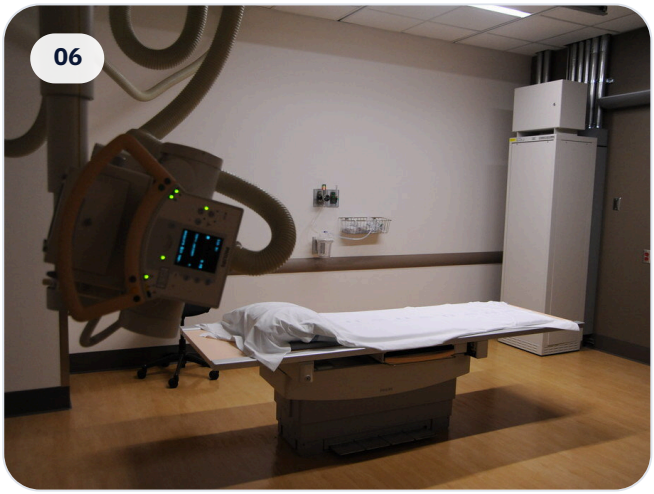

We supply and install surgical lighting systems with powerful illumination and an adjustable focus.

حضّانات الأطفال

Intensive Care Nursery

We supply and install neonatal intensive care units (infant incubators).

أجهزة الأشعة

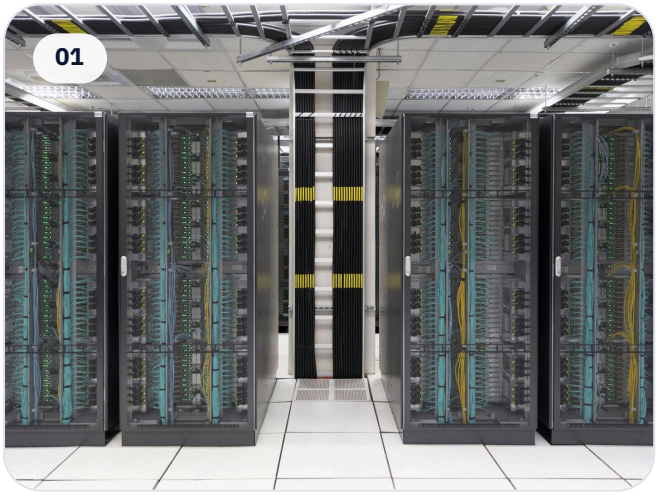

X-Ray

We supply and install diagnostic X-ray systems.

الأنظمة الأمنية والشبكات

Security Systems & Networks

Protection, surveillance and technology-infrastructure solutions — CCTV systems, networks, security gates and fire alarm systems.

حلول الشبكات

Network Solutions

Specialists in designing and implementing internet networks, and maintaining computer, internet and telecom networks for large companies as well as small and medium businesses.

كاميرات المراقبة

IP · CCTV Security Cameras

Security cameras have become a necessity in our daily lives.

Security Systems & Networks

أنظمة الإنذار من الحريق

Fire Systems

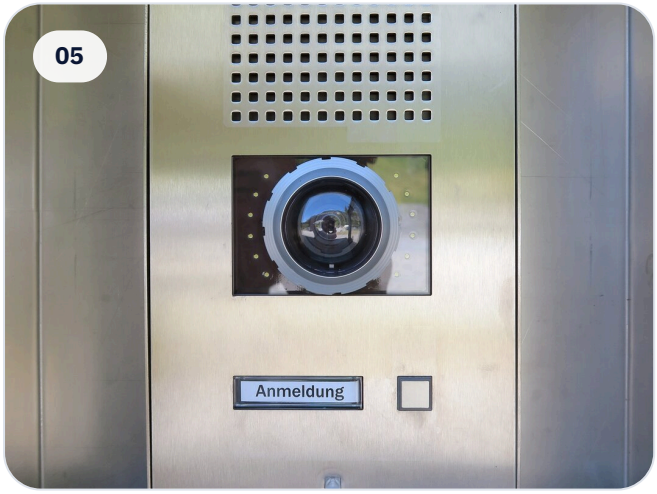

Sounds an audible alarm when a fire breaks out, so the affected area can be evacuated and the fire put out as quickly as possible.

نظام استدعاء التمريض

Nurse Call

An electronic system designed specifically to support patient care inside hospitals and large medical centers.

الإنتركم

Intercom

Used to control the doors of villas, offices and apartments remotely, with audio or video communication.

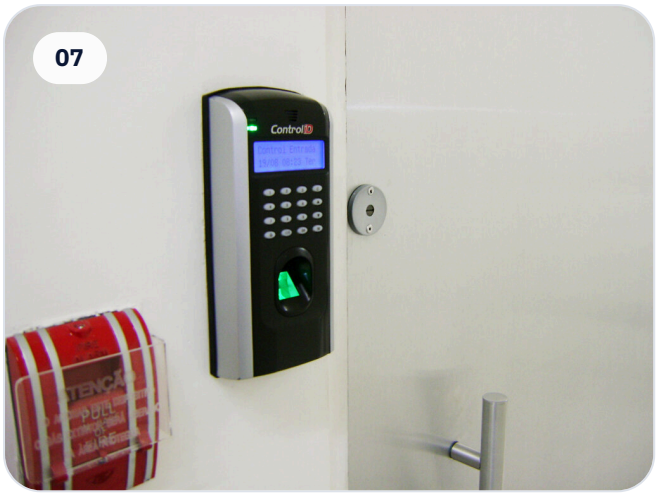

بوابات الدخول وكشف المعادن

Gates & Metal Detectors

Protects facilities and organizes the entry and exit of people and vehicles, with metal detection, using modern technology.

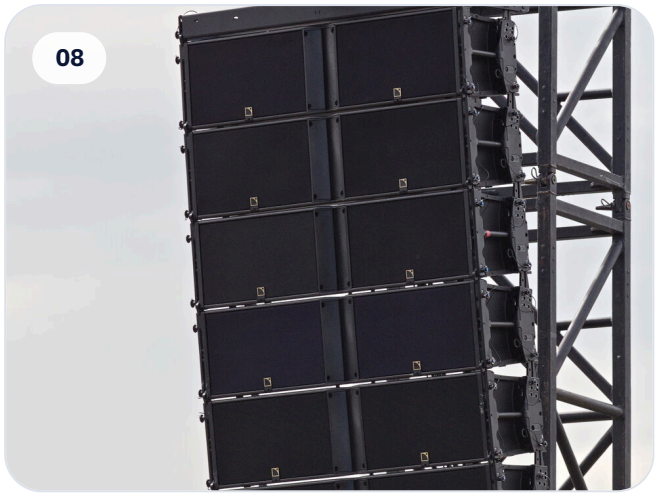

Security Systems & Networks

أجهزة البصمة

Fingerprint Devices

Managing and organizing working hours becomes remarkably easy — payroll can even be calculated systematically.

الأنظمة الصوتية

Sound Systems

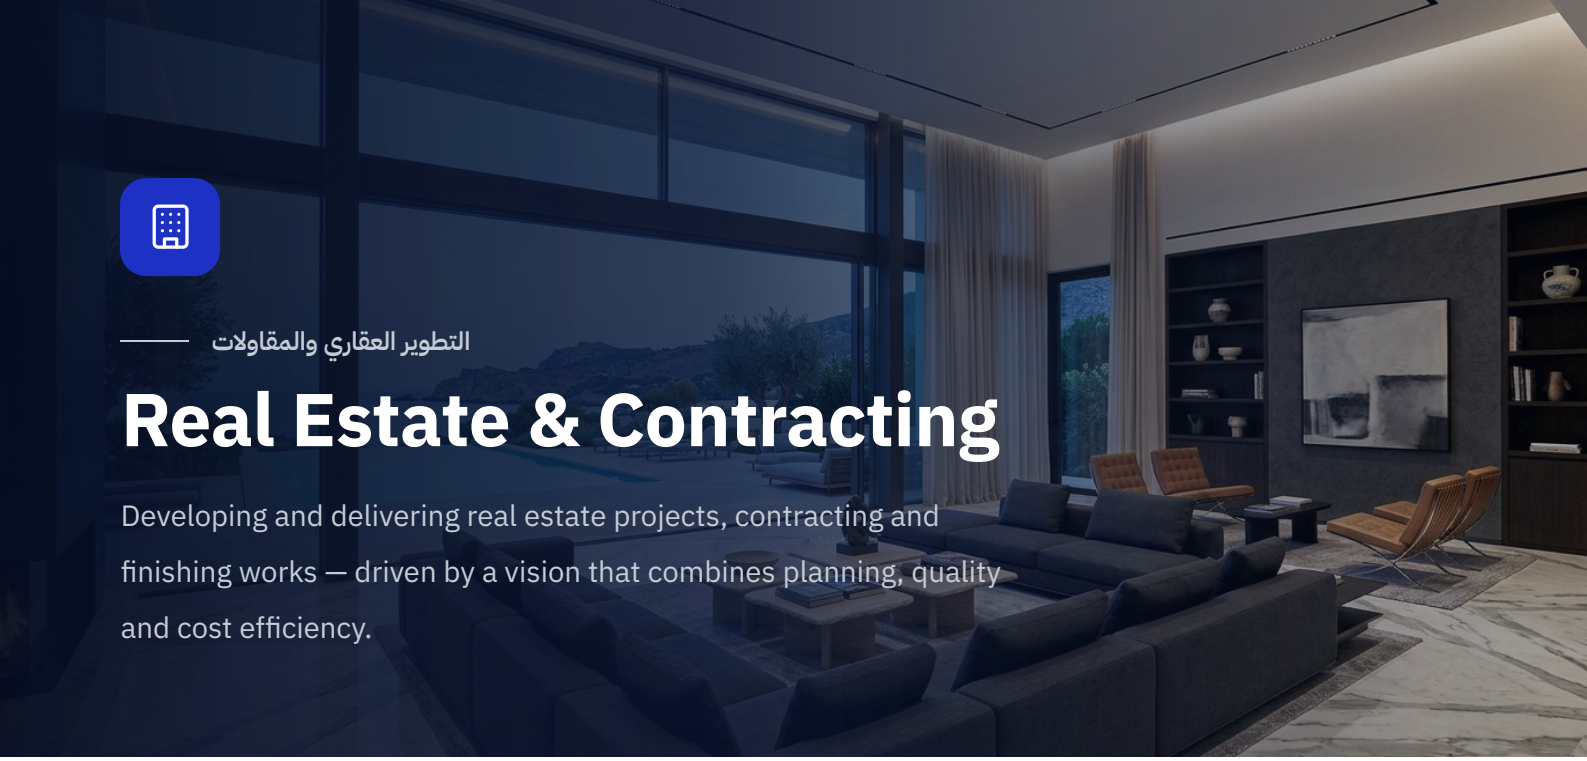

Specialists in supplying and installing all kinds of sound systems for companies, institutions and places of worship.

Integrated security — from cameras and fire systems to access control and networks.

We work with trusted global brands

HIKVISION DAHUA BOSCH AXIS ZKTECO HOCHIKI HST

التطوير العقاري والمقاولات

Real Estate & Contracting

Developing and delivering real estate projects, contracting and finishing works — driven by a vision that combines planning, quality and cost efficiency.

Our finishing and contracting division handles all décor works. We bring a new approach to interior design for apartments, villas, shops, restaurants, cafés, pharmacies, clinics and office buildings — designs built on sound engineering principles and dimensions that meet the functional needs of each space, with the latest décor and prices for every budget. We also prepare a bill of quantities so you know the total cost of your project before execution starts.
